+977-9840046008 | harijoshi07x@gmail.com | [LinkedIn](#) | [Github](#) | [Portfolio](#)

Summary

Mobile engineer with 2+ years of experience, skilled in Kotlin Multiplatform and Flutter, currently building fintech and remittance apps. Experience across maps, payments, and app security.

Experience

Mobile Engineer

Jul 2026 – Present

Swift Technology

Kathmandu, Nepal

- Built a cash-in feature for Japan Money Express in Kotlin and Jetpack Compose: users scan a QR code at a bank ATM, deposit cash, and send the money to Nepal, using polling, coroutines, and Flows.
- Hardened the legacy Java/XML Japan Money Express app with idle-session logout, reverse-engineering protection, VPN detection, screenshot prevention, and new-device detection.
- Rebuilding IME London in Flutter as a multi-module master app (platform, product, and solution repositories) with a region-specific solution layer for markets such as London and Dubai.

Mobile Engineer

Apr 2025 – Apr 2026

Kathmandu Living Labs

Kathmandu, Nepal

- Built core features of the Baato Maps Android app, including navigation, search, and real-time location data visualization.
- Built the main map interface with the MapLibre SDK and improved rendering performance.
- Fixed bugs and refactored components for scalability, reducing the crash rate by 30% in key user flows.

Android Developer Intern

Aug 2024 – Sep 2024

Uncle Sam's Technologies

Remote

- Integrated the Stripe Android SDK to implement a secure payment flow in the Billings App.
- Built a WebView component to embed external web content in the app, and worked with Ktor on backend API integration.

Projects

IPO Share | Kotlin, Android SDK, MVVM, Retrofit, SQLite |

May 2026

- Built an Android app for tracking IPO issues, checking allotment results, and monitoring portfolios in Nepal.
- Built dashboard and allotment-checking screens, with local caching in SQLite and live results fetched through Retrofit.

Driving License Exam Nepal | Kotlin, Jetpack Compose, Material 3 |

Feb 2025

- Built an offline-first Android app for Nepal's driving license exam preparation, using Jetpack Compose, Material Design 3, and Compose Navigation.
- Published on Google Play with 1k+ downloads.

Technical Skills

Languages: Kotlin, Java, Dart, SQL, C++, Python

Mobile: Android SDK, Jetpack Compose, XML Layouts, Kotlin Multiplatform (KMP), Compose Multiplatform (CMP), Flutter, Wear OS, MapLibre SDK

Architecture & Libraries: MVVM, Multi-module Architecture, Coroutines & Flows, Room, Retrofit, Hilt, Firebase

Testing & DevOps: Automated Testing, CI/CD

Backend (Basic): Ktor, Spring Boot

Developer Tools: Android Studio, IntelliJ IDEA, Git, Google Play Console, Figma, Postman, VS Code

Education

Thapathali Campus

May 2021 – May 2025

Bachelor of Electronics, Communication and Information Engineering

Kathmandu, Nepal

Leadership

Winner, Dristi 3.0 Hackathon | Kathmandu Engineering College

Jan 2025

- Built an Android app teaching Nepali language, culture, and folklore to NRN children.

Secretary, Leo Club of Kathmandu-Aarambha Deurali | Lions Club

2024 – 2025

- Organized a blood donation program at Thapathali Campus with 120+ donors.
